David Moisés Flores Videla

Software Engineer · .NET + React

Antofagasta, Chile · linkedin.com/in/dfloresvidela · +56 9 6444 5729 · david.flores.videla@gmail.com · davidfloresvidela.github.io/portfolio

Software engineer with 6 years of experience building scalable, end-to-end web solutions for enterprise clients. C# .NET back ends (Clean Architecture, microservices) and React + TypeScript front ends, deployed on Azure and Docker. Experienced in leading legacy system migrations, defining team technical standards and managing direct client communication on critical projects.

PROFESSIONAL EXPERIENCE

IMAGEN S.A. **Chile**
Tech Lead · Full Stack Developer *Nov 2021 – Present*

- Full-stack development of enterprise web systems using React + TypeScript and C# .NET.
- Backend architecture with Clean Architecture, microservices, caching, rate limiting and retry policies (Polly).
- Led the migration of a legacy work-permit system (SharePoint + WebParts) to a modern architecture: React + Vite, .NET 10 LTS microservices and a normalized SQL Server database, cutting form load times from ~5 seconds to milliseconds.
- Integration with Azure (App Services, Key Vault, Static Web Apps, CI/CD) and Power Platform (Power Apps, Power Automate, Logic Apps).
- Technical leadership of the team: defining standards, mentoring and direct client communication.

Project PAO (Freelance) **Chile**
Full Stack Developer *Feb 2024*

- Built new features for a production LMS (Claroline) using PHP and vanilla JavaScript.

Center for Research in IT and Learning **Chile**
Software Engineer *Jul 2020 – Mar 2021*

- Developed and maintained applications with PHP and vanilla JavaScript on the Claroline LMS platform.

Project SWITCH_OM **Chile**
Full Stack Developer *Aug 2019 – Jun 2020*

- LAMP digital desk (10 applications) for maintenance management, integrating JavaScript, PHP and C#.

PERSONAL PROJECTS · NOCHI LABS

StellarisMind **Personal**
Tech Lead and Developer *Feb 2026 – Present*

V1 · .NET + React Native *Feb 2026 – Apr 2026*

- Platform for psychologists and patients: clinical history, per-session tracking, activity assignment, patient–psychologist communication and a module for patients with ADHD.
- Stack: .NET 10, EF Core, FluentMigrator, React Native (Expo), Azure (App Service, SQL, Static Web Apps, CI/CD), Docker, Cloudflare R2, Clerk Auth.

V2 · Migration to Supabase + Cloudflare (in progress) *Oct 2026 – Present*

- Platform redesign to cut infrastructure costs and improve it: PostgreSQL with RLS, Edge Functions and Next.js 16 on Cloudflare Workers, in a Clean Architecture monorepo (pnpm + Turborepo).
- Complete booking module: bank-transfer payments with receipt review, Google Calendar and Meet, emails through a retry queue (Brevo); pgTAP and Playwright tests, CI on GitHub Actions.

OptiAhorro **Personal**
Developer · Live in production *May 2026 – Aug 2026*

- Comparison tool for high-yield savings accounts from Chile's main banks (rates, minimum balances and terms), with no sign-up and installable as a PWA. Live at optiahorro.cl.
- Next.js (static export), React, TypeScript, Supabase (PostgreSQL), TanStack Query, Zustand, Zod and Tailwind CSS; deployed on Cloudflare Pages with Pages Functions and security headers.

Slangario **Personal**
Developer · App in validation *Aug 2026 – Present*

- Mobile trivia app for learning English slang: scored rounds, streaks, energy, shop, onboarding and profile.
- Expo + React Native (TypeScript), Supabase (PostgreSQL with RLS across separate schemas), TanStack Query, Zustand and Zod; rewarded ads (AdMob), push notifications (OneSignal) and CI on GitHub Actions.

EDUCATION

INACAP **Chile**
Computer Engineer · Bachelor's Degree in Computer Engineering *2017 – 2021*

LANGUAGES

- Spanish — Native
- English — Intermediate (B1): technical reading and writing; spoken fluency still developing
- British Council English Online — B1 level, in progress (since Sep 2026)
- English Forever — general English (2024–2025)

CERTIFICATIONS

- Scrum Product Owner — Diacos Asesores (2022)

ADDITIONAL SKILLS

Technical leadership · Direct client communication · Continuous improvement · Adaptability

TECHNOLOGIES

C# / .NET, React, TypeScript, SQL Server, Azure, Docker, Next.js, React Native, PostgreSQL, EF Core, NestJS, Power Platform, Python, Firebase, Supabase, Cloudflare (Workers, Pages, R2), AWS S3, PHP
